Milner Off Road Limited

Milner Off Road Ltd are the leading UK mail order 4x4 parts suppliers, offering parts for most Japanese 4x4 vehicles.

Milner Off Road contacted Midlands Asbestos Solutions Ltd to carry out the asbestos removal to an old storage unit to make way for the construction of a new warehouse.

The project consisted of removing asbestos corrugated sheets which formed the structure of the unit. The works were carried out over 4 days using specialist trained operatives via MEWPS and working at height methods. The work area was handed over within the scheduled time frame ready for the demolition of the steel framework.
